New Enterprise invests \$15M in T-Ram Inc.

San Francisco Business Times

New Enterprise Associates in Menlo Park gave San Jose-based memory technology development firm **T-RAM Inc.** \$15 million.

T-Ram expects to use the money to continue developing its product that will combine the speed of a static random access memory system with the density of a dynamic random access memory system.

New Enterprise's funding leads a \$35 million round B of financing for the company.
